HiStore[®] lite

Storage that maximises the full height of your office walls without the complexity or installation costs of built-in furniture.

Supplied flat-packed for convenient delivery, this floor-to-ceiling storage system is easily assembled without any need for specialist carpentry skills or equipment.

HiStore Lite is available in heights from 2330mm to 2905mm, in 25mm increments.

Offered in our wide selection of MFC, 3D MFC and PerfectSense Matt finishes to complement all interior design schemes.

With its extensive choice of internal fittings, HiStore Lite provides an attractive and practical solution to maximising workplace storage.
